TAKE CONTROL OF A 737

737 Fight Simulator puts you in the cockpit of a modern airliner. Plan your flight, set your heading and take to the skies. Manage your speed, altitude and fuel, and bring your aircraft in for a safe landing.

A realistic and challenging simulation for the Acorn Electron, giving you a taste of life in the flight deck.

- Realistic 737 flight model
- Take-off, navigation and landing
- Manage fuel, speed and altitude
- Multiple airports and routes
- A true test of your flying skills
