

Introduction

Leg of Toad, and Golden Fruit,
Mix with Ashes and Nightshade Root.

At the end of the thirteenth century, there lived in the land of Larraine ten wise and powerful Magelords. Each of them had studied sorcery and enchantment from childhood days, and each knew how to evoke potent spells capable of causing metamorphosis and devastation.

You play the role of one such Magelord named Eldon The Spellbinder. Your task is to find the evil Zorn, who has deserted the Magelord brotherhood and fled to the Castle of Lorraine.

Then, by collecting the correct ingredients, you must mix the Ultimate Spell, cast it at Zorn and banish him for good.

The Castle of Lorraine

You must work your way through the many rooms comprising the castle's two floors, three citadels, catacomb and dungeon. To move between levels, you must locate a teleport or use the portals. Your route through the castle is complicated due to secret passages, one-way doors and doors that will appear only after specific tasks have been performed.
